

Recycled Cardboard Coffins

Cardboard coffins are legal and accepted throughout Australia

The Leaving Lightly 'Byron' coffin meets all the requirements of the Australian funeral industry.

The Leaving Lightly "Byron' comes complete with cotton lining and a pillow.

Has been weight tested to a breaking point of over 800kg and the handles have been tested to a breaking point of 240kg.

Perfectly suitable for burial or cremation

Made from 100% post consumer cardboard. Recycled cardboard is made from unbleached cardboard, - not timber pulp, newspaper, glossy packaging or plasticised waste. The transition from post consumer cardboard to 'recycled cardboard' is efficient and as eco-friendly as possible.

The Leaving Lightly "Byron' is eminently suitable for decorating with your own drawings, paintings, photos and messages.
